## 1942 INTRODUCTIONS

**AUTUMN SUNSET:** (Lapham-Horton)1942). This is a dependable fall bloomer. It has bloomed four years straight, two of which no other Fall bloomer came across. Also early planted rhizomes bloomed last year as "Intermediates" while those planted late and established plants bloomed in the regular season. It is a "break" from Rameses and Rosy Wings, a pleasing blend of gold, rose and lilac, large, fine form and heavy substance. It is tall and well branched with many blooms - and in the Fall the stalks run even more massive and lower branched and the blooms are somewhat darker and richer, more beautiful than in Summer. Mr. Lapham showed the 9th bloom to open on a stalk at the Regional Meet in Chicago Nov. 1st and it attracted much attention. 5.00

**BLUE CLOUD:** (Horton 1942) A massive dark blue purple bloom, not floppy but rounded petals, very heavy substance, well branched and 9 blooms. Tall and sturdy and a good increaser. Several people wanted to buy stock of this while in bloom last year (first bloom) but I wished to retain stock until introduced. 15.00

**DARKEST AFRICA:** (Horton 1942) Blackish red purple, of medium height and medium tall stalks. I dreamed of a black iris one night, and the next day I found this in bloom, which was just about as I dreamed. 8.00

**PINK RHAPSODY:** (Horton 1942) This is a very luscious, warm pink, tall stalks with 11 blooms, of good size and plant is a good increaser and a splendid parent both ways. 20.00

## 1941 INTRODUCTIONS

Pink Marvel, (Lapham-Horton 1941)  
 Aztec Glory (Horton 1941) HC  
 Sweet Spring (Horton 1941) Dwarf  
 Riding High (Lapham-Horton 1940)

GENERAL LIST OF NEW AND THE BEST OF THE OLDER  
VARIETIES:
